Presentation Housekeeping…

- Please enter questions into the chat and they will be answered during a Q&A session at the end of the presentation.

- You can also email questions following this presentation to rdm@rowan.edu (Email and contacts will be shared on the final slide again).

- The slides will be made available online following the presentation on the https://libguides.rowan.edu/libraryworkshops web page.

Overview

- What is ORCID?

- Significance for researchers

- How do I get an ORCID?

- Value of ORCID in research workflow

What is ORCID?

ORCID = Open Researcher and Contributor IDentifier

What is ORCID?

- A 16 digit, persistent, unique identifier, helps with name disambiguation

- A non-profit organization
  - An international-scale open research effort

- An interoperable tool

- Registry of open research data

- A set of standard procedures for connecting researchers to their affiliations and activities

Biography

I seek to answer fundamental questions about the interactions between human-induced global change and energy and materials transformations at the sediment-water interface. The chemical, physical, and biological processes hosted in aquatic soils and sediments are central to the global elemental cycles that make our planet habitable. I use a combination of extremely high-resolution chemical sensors, stable isotope- and radioisotope-based biogeochemical process rate measurements, flux measurements, diagenetic modeling, and long-term, in situ environmental monitoring in my research.

⌄review activity for Water resources research.(1)

journal, Water Resources Research is an interdisciplinary journal that focuses on hydrology and water resources. It publishes original research in the natural and social sciences of water. It emphasizes the role of physical, chemical, biological, and ecological processes in water resources research and management, including social, policy, and public health implications. It encompasses methodological development of observational, experimental, theoretical, analytical, numerical, and data-driven approaches that advance the science of water and its management. Submissions are evaluated for their novelty, accuracy, significance, and broader implications of the findings.

How do I get an ORCID?

When first signing up for an ORCID account, click the "**sign in/register**" option, then click **register**.

How do I get an **ORCID**?

To access your ORCID record, please visit the ORCID Registry at:

https://orcid.org/signin.

Please note you can sign into ORCID using your Rowan credentials.

Sign into ORCID or **Register now**

| 👤 **Personal account** | 🏛 **Institutional account** |

Allow me to pick from a list

How do I get an ORCID?

Be sure to use your rowan.edu email when signing up for the first time. You can add an additional personal email as well.

Per ORCID's **terms and conditions** , you may only register for an ORCID iD for yourself.

Visibility settings

Your ORCID iD connects with your ORCID record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it. **More information on visibility settings**.

By default, who should be able to see information added to your ORCID Record?

○ 👥 **Everyone** (87% of users choose this)

○ 🔑 **Trusted parties** (5% of users choose this)

○ 🔒 **Only me** (8% of users choose this)

How do I get an ORCID?

If you ever created an ORCID account before, it may identify it when signing up. If this is the case, you sign into that old account and then associate it with Rowan University.

Linking an existing ORCID account to Rowan University

The first time you sign in using your institutional or social media account from ORCID, you will be asked to connect your ORCID account by signing in using your ORCID username (email address or ORCID iD) and password, and then confirm that the accounts be linked. After that, you may sign in using your ORCID credentials or any linked account.

Link your United ID account to your ORCID record

You are signed into United ID as sgarcia@unitedid.org

To finish linking this United ID account to ORCID, sign into your ORCID iD below.

You will only need to complete this step once. After your account is linked, you will be able to access your ORCID record with your United ID account. Questions? Visit our knowledgebase

Linking an existing ORCID account to Rowan University (continued)

You may link multiple institutional or other accounts to your ORCID account. Once linked, any of these may be used to access your ORCID record. To link multiple accounts, repeat the linking procedure for each additional account.

You can view the accounts that you have linked to your ORCID record in your account settings.

Alternate sign in accounts

You can sign into ORCID using the personal and institutional accounts you have linked to your ORCID record.

How to add content to your ORCID account

Publications

ORCID automatically connects to several external databases to easy import your previous works to your profile:

We recommend using Crossref or Scopus.

How to add content to your ORCID account

Publications

Additionally, you can manually add publications by using:
- An article DOI
- A Pubmed ID
- A Bibtex files from Endnote/Mendeley/etc.
-Manually input the article metadata yourself.

ADD WORK

Value of **ORCID** in Research Workflow

You have an ORCID, now what? ...

- Add it to your Rowan Digital Works Researcher Profile (Only available to faculty)email rdw@rowan.edu for more information OR Or to your PIVOT Profile

- Add it to your grant applications.

- Add it to your affiliation information when submitting manuscripts to journals.

- Add it to your email signature.

- Add it to other research profiles such as Scopus ID, ReseacherID, or your SciENcv.

- Add it to your CV and/or tenure applications.

Adding your ORCID to other researcher profiles generates increased promotion and access to your scholarly activity.
