Outline

• Background
• Statistics
• Takeaways
• Directions for Future Research
Background

- Purpose:
  - Environmental scan to investigate our reference model
  - Librarian attitudes and perceptions of a physical reference desk
  - Initial survey of NJ public university/colleges in Fall of 2018 (10 respondents), presented at VALE January 2019
  - National Survey of university/colleges in Spring of 2019 (239 respondents)
  - Made slight changes to survey based on initial data collection
Survey Respondents: Public vs. Private

Private, 103, 43%

Public, 136, 57%
Survey Respondents: Faculty Status

- Yes, 143, 60%
- No, 96, 40%
Survey Respondents: Type of Library

- Main, 203, 85%
- Branch, 15, 6%
- Medical/Dental, 8, 3%
- Other, 13, 6%
Survey Respondents: Type of Institution

- University, 103, 43%
- Four Year, 84, 35%
- Community, 45, 19%
- Other, 7, 3%
Survey Respondents: Student FTE

- Less than 1,000 students: 27
- Over 1,000 but less than 5,000 students: 100
- Over 5,000 but less than 10,000 students: 45
- Over 10,000 but less than 20,000 students: 37
- Over 20,000 but less than 30,000 students: 14
- Over 30,000 students: 16
Survey Respondents: Urban/Suburban/Rural

Rural: 2,500 or less
Suburban: 2,501-49,999
Urban: More than 50,000

Source: https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural/2010-urban-rural.html
Survey Respondents: Regional Breakdown

- **West, 27, 11%**
- **Midwest, 60, 25%**
- **South, 68, 29%**
- **Northeast, 84, 35%**

Poll Question #1

Do you have student workers (undergraduate or graduate) answering reference questions?
Poll Question #2

Do you have library staff (non-librarians) answering reference questions?
Survey Respondents: # of Non-librarian Staff at the Reference Desk
Open-Ended Question #1

What are pros or cons of using non-librarians to answer reference questions?
Poll Question #3

How many full-time librarians provide reference services? 1-2; 3-4; 5-6; 7-8; 9-10; 11+
How much time do you spend in a typical week on answering reference questions (in person, virtual, email, etc.)? 0-20%; 21-40%; 41-60%; 61-80%; 81-100%
Survey Respondents: # of Librarians providing reference

- 1-2: 54
- 3-4: 55
- 5-6: 44
- 7-8: 33
- 9-10: 21
- 11+: 30
Poll Question #5

What is your current reference desk model? No current physical reference desk; Traditional; Share Services; Information Commons
Survey Respondents: Current Desk Model

- Traditional, 108, 45%
- Shared Services, 81, 34%
- Reference desk/information commons/learning commons, 16, 7%
- No physical reference desk, 34, 14%
Poll Question #6

Do Librarians staff your reference desk (if applicable)?
Survey Respondents: Do librarians staff the desk?

Yes, 171, 83%

No, 35, 17%
What are the origins of your current desk model?
Poll Question #7

What percentage of the questions asked at the reference desk are reference questions (this excludes directional questions, like asking about the printer and where the bathroom is located)?

- 0-20%
- 21-40%
- 41-60%
- 61-80%
- 81-100%
Survey Respondents: % of Reference Questions asked

- Highest 81-100%, 36, 17%
- Low 21-40%, 61, 30%
- Moderate 41-60%, 24, 12%
- High 61-80%, 42, 20%
- Lowest 0-20%, 43, 21%
Open-Ended Question #3

How if at all do you track statistics on your reference questions? Do you make any changes based on the statistics (data-driven decision making). What have you learned?
Poll Question #8

Is a physical reference desk necessary?
Survey Respondents: Is a physical reference desk necessary?

- No, 75, 31%
- Yes, 164, 69%
Poll Question #9

From 1 (least valuable) to 10 (most valuable) how much do you value a physical reference desk?
Survey Respondents: Value of a physical reference desk

![Graph showing the value of a physical reference desk](image)

- Number of Respondents
- Value of physical reference desk (1: least valuable, 10: most valuable)
Poll Question #10

Do you support maintaining a physical reference desk? Strongly Support; Somewhat Support; Neither Support nor Oppose; Somewhat Oppose; Strongly Oppose
Survey Respondents: Do you support maintaining a physical reference desk?

- Strongly support, 123, 52%
- Somewhat support, 54, 23%
- Neither support nor oppose, 32, 13%
- Somewhat oppose, 19, 8%
- Strongly oppose, 10, 4%
Open-Ended Question #4

Since the pandemic has driven services online, what has been your reference experience? Are you getting similar questions? What are the commonly asked questions? Has your pandemic experience changed your perspective on the need for a physical reference desk?

go.rowan.edu/ala20open4
Takeaways

• Statistics show while some people are using different desk models, the traditional reference desk is still prominent
• 37% of respondents think their reference desk gets mostly reference questions
• 59% of respondents rank the value of a physical reference desk at 8 or above
• 10% of respondents rank the value or a physical reference desk below a 3
• Statistics show approximately 75% of respondents support maintaining a physical reference desk
Directions for Future Research

• International Survey
• Student needs assessment
• Perceptions vs reality
  • Short follow-up survey for detailed reference stats
• Engage staff in conversation
